## Embryo Transfer Services and Fees for 2009

- **Stanchion Fee – Embryo Transfer with Artificial Insemination** 500.00  
This fee will cover palpations, ultrasound, artificial insemination with fresh and cooled semen and the embryo flush for one heat cycle, while the mare is at Bella Vista Equine. The fee also includes synchronization of two recipient mares for the embryo transfer. The use of hormones and medications and any additional treatments are charged extra. There will be an additional charge of 50 dollars per heat cycle for mares bred with frozen semen.
- **Shipped Embryo Transfer** 400.00  
The donor mare is bred outside Bella Vista Equine. The mare is flushed at a different facility as well, and the embryo is shipped to Bella Vista Equine for the embryo transfer. This fee will cover the synchronization of two recipient mares for one breeding cycle.
- **Embryo Flush** 450.00  
The donor mare is bred at a different facility and the mare is flushed at Bella Vista Equine. This fee will cover one embryo flush and the synchronization of two recipient mares for one breeding cycle.
- **Transfer of Embryo** NO CHARGE
- **Pregnancy Fee at 14 days** 1,500.00
- **Pregnancy Fee at 45 days** 1,500.00
- **Recipient Mare Deposit** 800.00  
This fee is due when the recipient mare leaves Bella Vista Equine. This fee is **refundable** when the recipient mare returns in good health to Bella Vista Equine. Please, see contract for details.

### .BOARDING SERVICES:
