
BELLA VISTA EQUINE REPRODUCTIVE SERVICES, LLC

Breeding Services and Fees for 2009

- **Stanchion Fee - Fresh/Cooled Semen** 250.00
This fee includes all palpations, ultrasound and artificial insemination with fresh and cooled semen for one breeding cycle, while the mare is at Bella Vista Equine. Any treatments and medications are charged extra. (If the number of ultrasounds performed during one breeding cycle are less than five, then the charges will be less than 250.00. Please consult us for more details on Stanchion Fee Level I)

- **Stanchion Fee - Frozen Semen** 320.00
This fee includes all palpations, ultrasound and artificial insemination with frozen semen for one breeding cycle, while the mare is at Bella Vista Equine. It also includes storage of the frozen semen for one breeding season. Any treatments and medications are charged extra.

- **Stanchion Fee - Embryo Transfer** 500.00
This fee will cover palpations, ultrasound, artificial insemination with fresh and cooled semen and the embryo flush for one heat cycle, while the mare is at Bella Vista Equine. The fee also includes synchronization of two recipient mares for the embryo transfer. The use of hormones and medications and any additional treatments are charged extra. There will be an additional charge of 50 dollars per heat cycle for mares bred with frozen semen.

- **Boarding:**
 - SINGLE MARE 15.00
Mare will be boarded in stall and turned out on individual turn out areas
 - MARE WITH FOAL 17.00
Mare and foal will be boarded in stall and turned out on individual turn out areas
